B725 Sporter S1

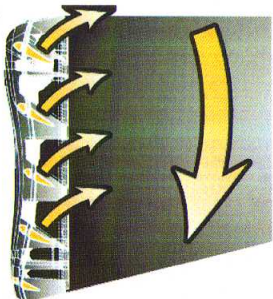

B725 Hunter 1

Introducing the new B725

BROWNING
The Best There Is

B725

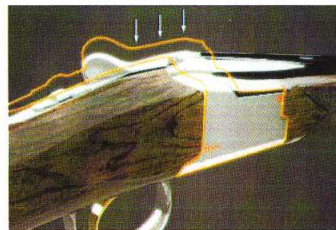

- The new B725 combines the legendary strength of the B25 range with these revolutionary design and features:

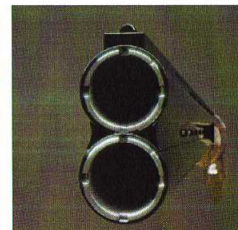

New Inflex II

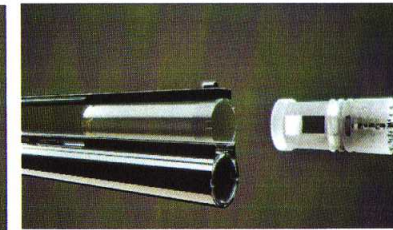

New high performance
mechanical trigger
system

Low
action
frame

Barrel
assembly

New choke

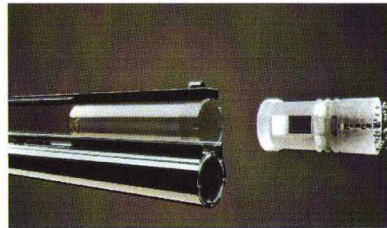

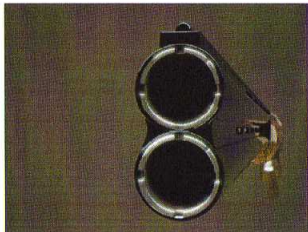

B725 Key features Benefits

BROWNING
The Best There Is

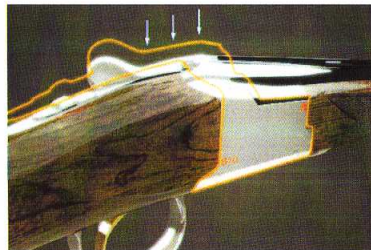

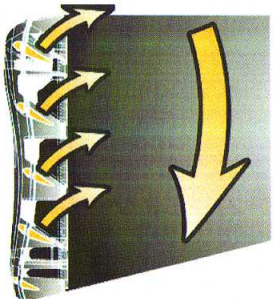

B725

- Technical efficiency
 - Mechanical trigger system
 - Trigger pull factory set at 3lbs

- Perfect patterns
 - Invector DS Chokes
 - Back-Bored & Vector Pro barrels
 - Invector DS Chokes

- Superior level of feel
 - Low action frame
 - Inflex II pad

Mechanical trigger system

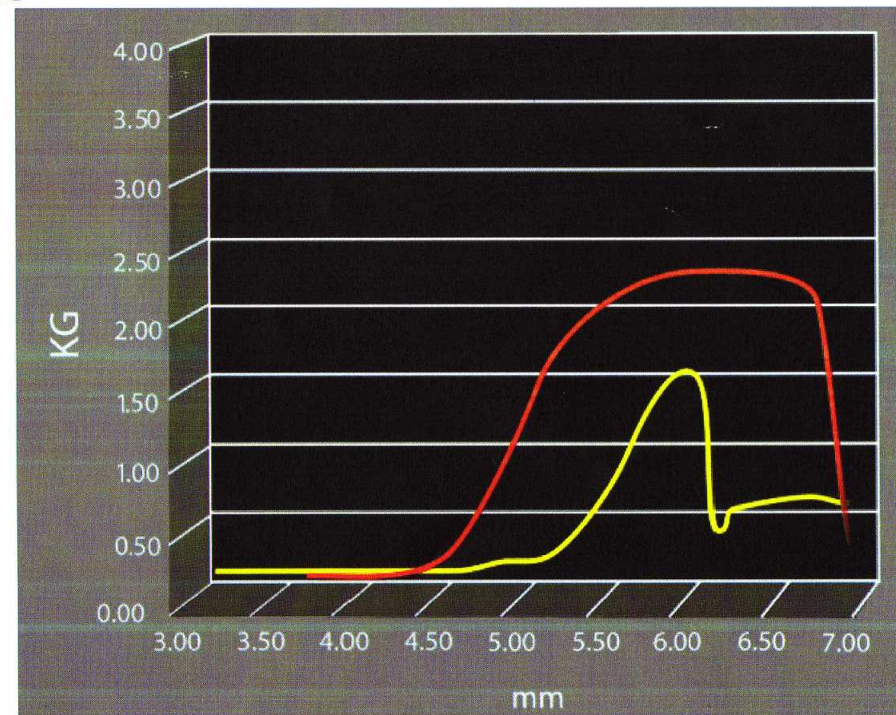

BROWNING
The Best There Is

B725

- The B725 has an all new mechanical trigger system, allowing the shooter to really “feel” the shot as the trigger is pulled.
- This new Mechanical trigger system is shorter, faster and lighter for a great feel giving more control over your shooting.
- Second shot guaranteed whatever the circumstance - made possible by the disconnecter.
- Trigger pulls are factory pre-set at approx. 3lbs for the B725 Sporter and B725 Hunter.

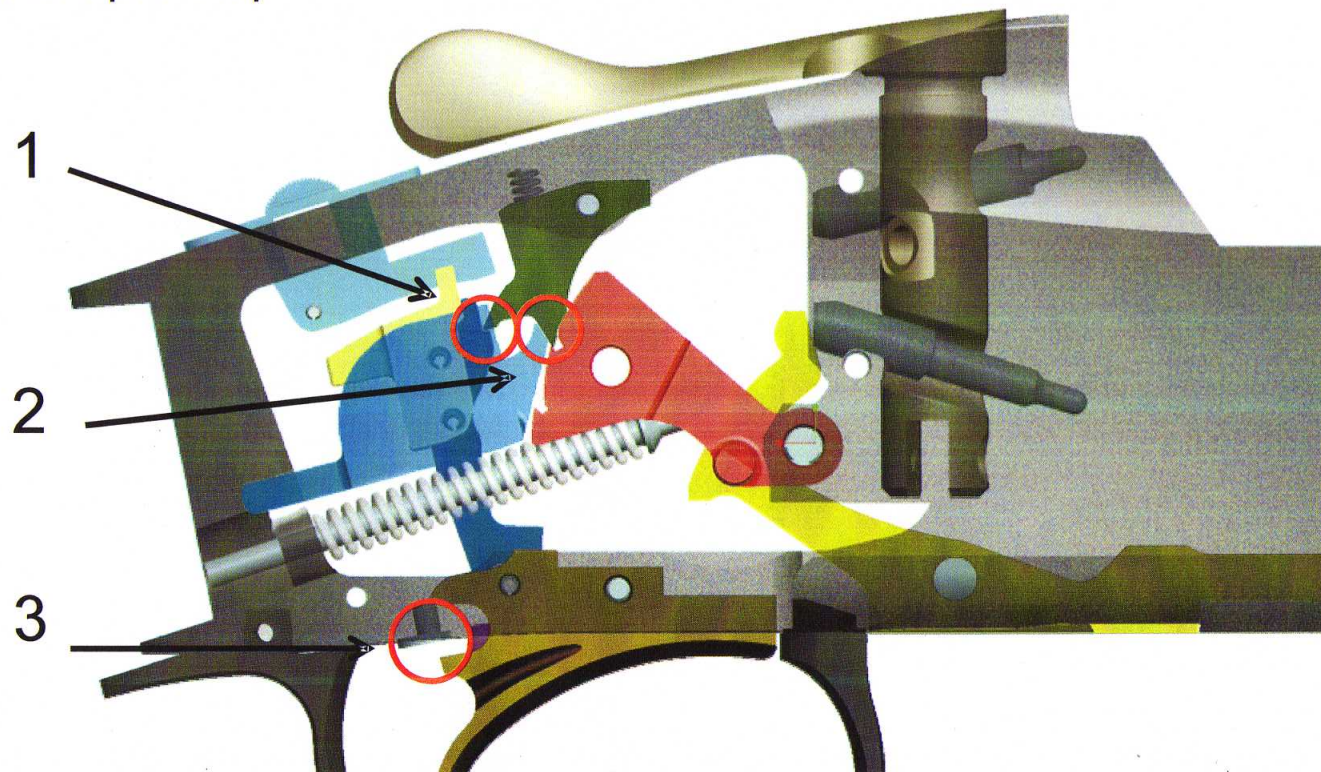

B725 trigger curve in yellow.

Competitor trigger curve in red.

Mechanical trigger system

- 3 improvements points providing optimum firing and precision with a great feel by limiting the movement of parts and optimising their geometry:
 - 1/ reducing the distance travelled by the trigger before it comes into contact with the sear as the shot is taken.
 - 2/ reducing the distance travelled between the sear and the hammer, allowing the two parts to slide over one another and to disengage very quickly.
 - 3/ limiting the distance travelled by the trigger when the hammer has fallen, by means of a simple stop.

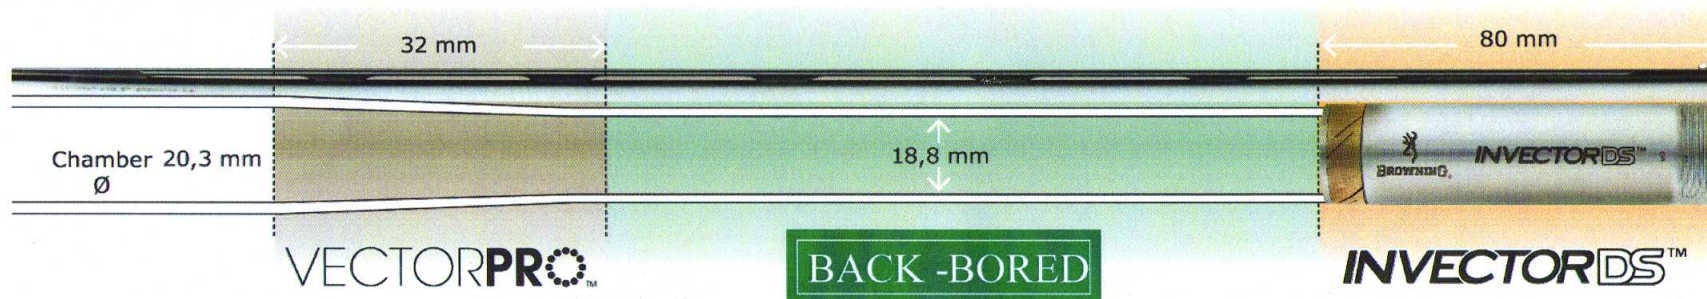

The perfect shot-pattern

BROWNING
The Best There Is.

B725

- The unique exclusive combination of a Vector Pro extended forcing cone, a Back-Bored barrel and the brand-new Invector DS gives you the best barrel-work on the market.

Invector DS Chokes

BROWNING
The Best There Is

B725

- The new Invector DS (Double Seal) chokes provide unrivalled performance thanks to
 - an optimal length of 80mm,
 - an exclusive internal shape
 - a patented gas seal segment.
- These 3 characteristics optimize performances over all shooting distances and ensures an uniform concentration of the shot pattern when using lead or steel shot.
- Minimised "trombone" effect thanks to the muzzle thread.

INVECTOR DS™

Invector DS Chokes

- The new patented Invector DS Chokes are fitted with an exclusive segment that provides
 - a double seal, which limits combustion gas penetration and avoids fouling of the choke and its thread.
 - This guarantees a clean choke, which is easy to remove under any conditions.
 - After intensive firing with 500 of the most dirty cartridges, competitors' chokes that do not have any compression rings are completely fouled by combustion gasses.

INVECTOR DS™

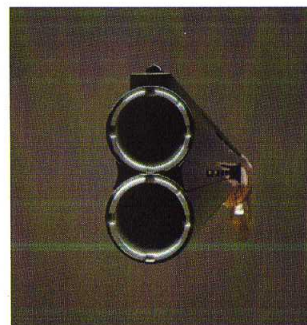

Back Bored & Vector Pro

BROWNING
The Best There Is

B725

- The B725 has new Back-Bored barrels & Vector Pro forcing cones with Invector DS chokes.
- This long, gradual taper reduces constriction from the forcing cone on the shot column leading to significantly fewer deformed pellets and more uniform patterns with more pellets in the central part of the pattern
- The tapered barrel design also improves balance, moving the balance point back 14mm compared to B525

BACK -BORED
VECTOR**PRO**™

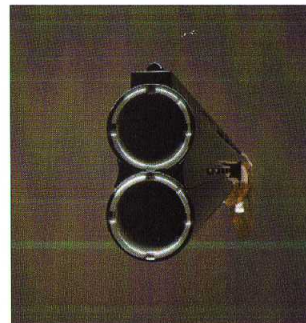

ERGO
BALANCED

Back Bored & Vector Pro

- Three advantages:
 - Increased speed and better penetration of shot by reducing friction between the shot and the walls of the barrel.
 - Better shot pattern by reducing any pellet deformation when going from through the forcing cone between the chamber and the barrel bore.
 - Recoil is reduced because the shot load moves more freely.

BACK -BORED
VECTOR**PRO**™

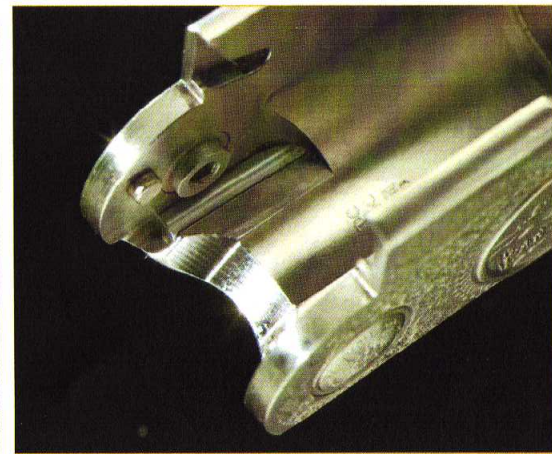

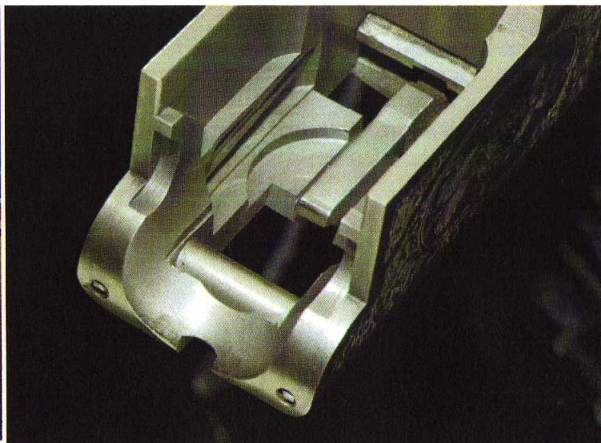

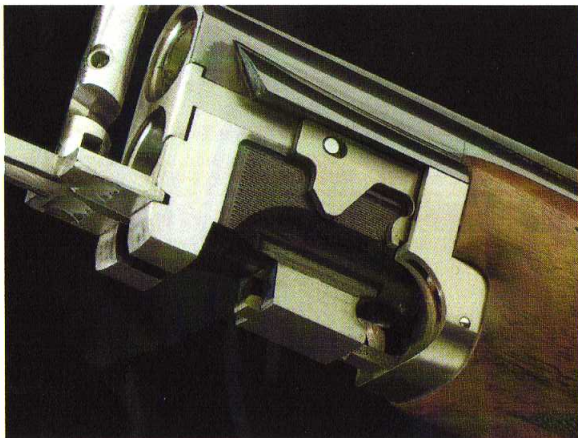

ERGO
BALANCED

Low action frame

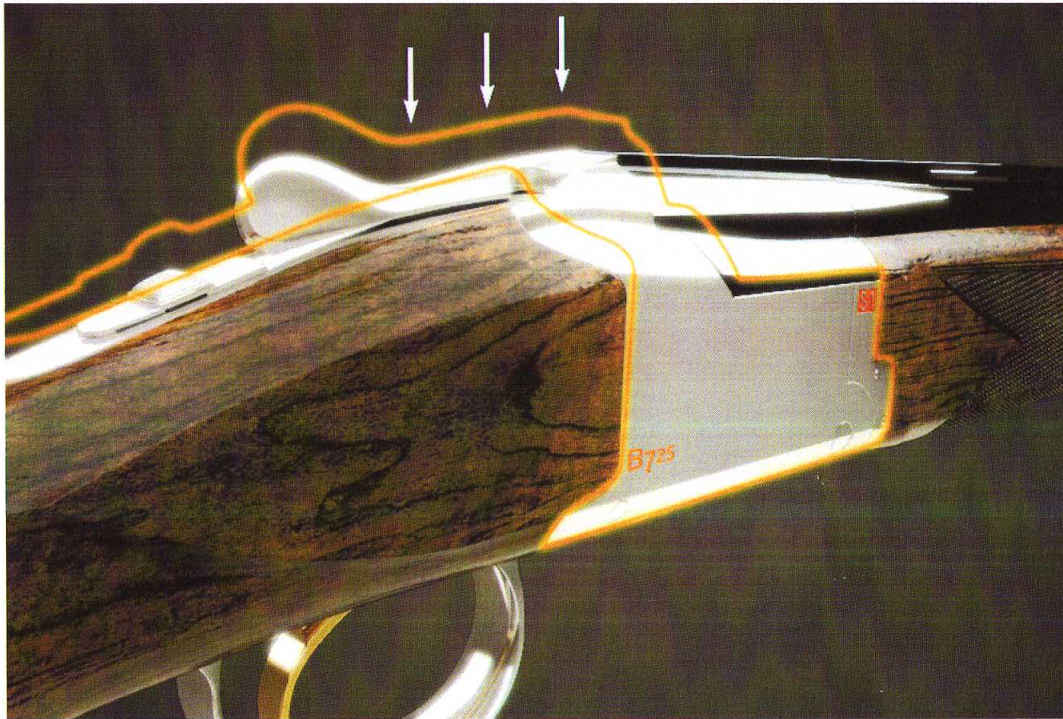

- The B725 retains all the features that gave previous B –series models their legendary reliability and sturdiness. This is all thanks to its wide, flat bolt, a unique full width hinge pin with wide recoil surfaces.

Now all combined in a low action frame.

Low action frame

Like all Browning O/U shotguns, the new low action frame of the B725 comes with a 10 year guarantee.

BROWNING
The Best There Is

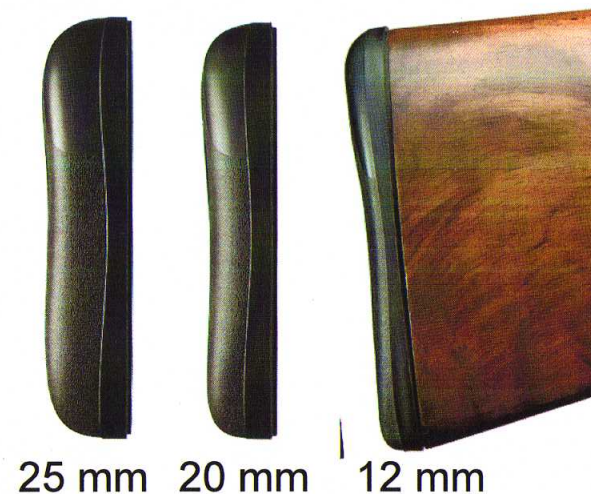

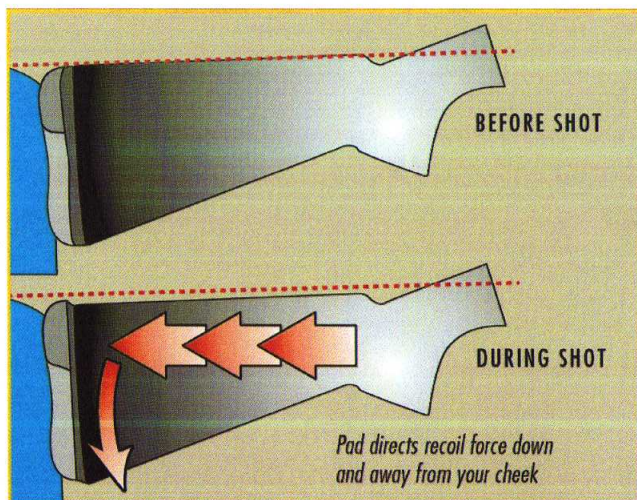

B725

Inflex II Recoil pad

BROWNING
The Best There Is

B725

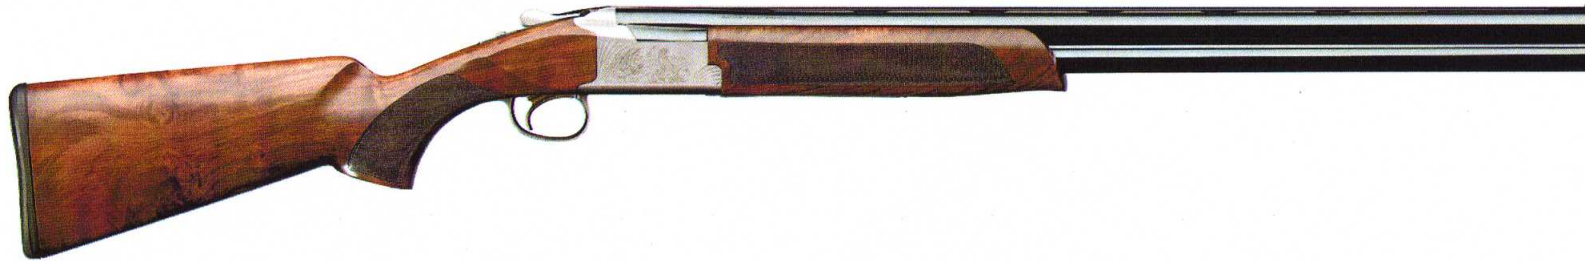

- A totally new Inflex recoil pad is fitted on all B725 shotguns as standard.
- This ultra flexible recoil pad provides the best recoil absorption possible on a shotgun.
- This exclusive material makes shouldering easier.
- The proprietary construction and exclusively designed pads generates a downward movement of the stock when firing, moving it away from the shooter's cheek, and giving incomparable comfort when firing.

New B725 Hunter 12M

BROWNING
The Best There Is™

B725

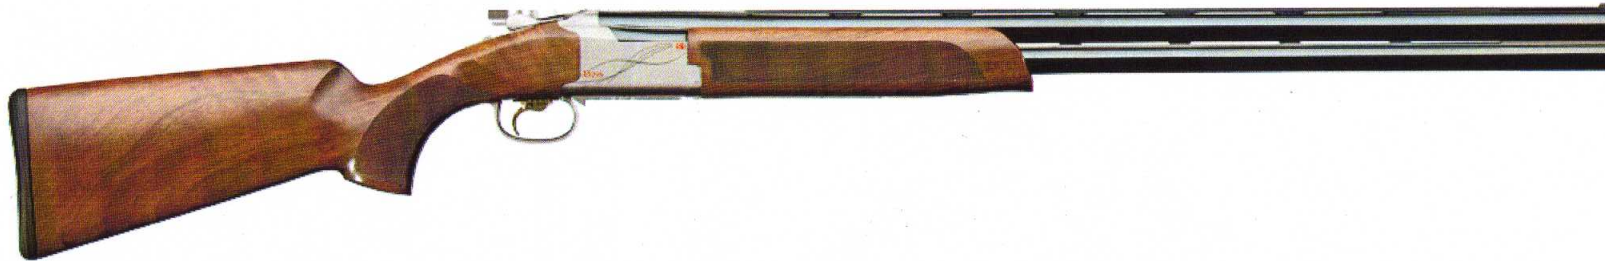

Key Features

- Beautiful and modern game scene engraving
- Mechanical trigger, with trigger pull set at 3lbs
- Receiver processed for auto-safety (parts included in the box)
- Back-Bored, 5 x Invector DS chokes
- 6mm top rib
- Wood grade 2,5, oil finished
- Drops 37-57mm, length of pull 14³/₄"
- Available in Left Hand versions
- Pad: Inflex II 12mm
- New ABS gun case & accessory box

New B725 Sporter S1 12M

BROWNING
The Best There Is

B725

Key Features

- Elegant and modern engraving.
- Mechanical trigger, with trigger pull set to 3lbs
- Receiver processed for auto-safety, (parts included in box)
- Back-Bored, 5 x Invector DS chokes
- 10mm top rib
- Wood grade 2,5, oil finished, Drops 37-57mm, 14³/₄" L.O.P.
- Stock with palm swell and large comb for increased comfort.
- Available in Left Hand versions
- Pad: Inflex II 12mm
- New ABS gun case & accessory box
