NEW

Silver Pigeon 1 **SRP £1,495 (12 ga.)****SRP from £1,535 (small ga.)**

The Silver Pigeon 1 is an outstanding value, Beretta game model. By pooling together the European importers to create a unified specification, Beretta have managed to optimise their economies of scale. This has resulted in an extremely competitively priced Beretta, made to the usual high quality standards. The Silver Pigeon 1 features a new delicate scroll engraving and is available in 12ga. - 26", 28" and 30" multi choke plus 20 ga., 28 ga., and 410 ga.

NEW

Silver Pigeon 1 Deluxe **SRP £1,985**

The award winning Beretta Silver Pigeon 1 is now available with a deluxe game scene engraving and upgraded wood. As with the scroll, no corners have been cut to bring you a 100% genuine Beretta at a fantastic price. Utilising the proven 680 action and legendary chrome lined barrels the Silver Pigeon 1 Deluxe is a winning formula. Available in Sporting and Field specification (see page 8 for more information).

Silver Pigeon III **SRP from £2,400**

The distinctive Silver Pigeon III features a selected, oil finished walnut stock, an extensive gamescene engraving and a traditional Schnabel forend. Needless to say, the shotgun boasts the same durability as the Silver Pigeon 1, but with upgraded cosmetics. A Gel-Tek recoil pad is an optional extra.

SV10 Perennia Series

The new SV10 Perennia introduces innovative patented technology that truly redefines the over and under. Its new action shape ensures an even stronger lock-up between barrels and receiver, and the new Optima-Bore® high performance (Optima-Bore® HP) barrel profile and Optimachoke® HP choke tubes, ease recoil and improve patterning.

As an optional extra, the SV10 Perennia is also available with the Kick-Off® recoil reduction system.

NEW

SV10 Perennia 1 **SRP £1,935 (without Kick-Off®)****SRP £2,145 (with Kick-Off®)**SV10 Perennia III **SRP £2,585 (without Kick-Off®)****SRP £2,680 (with Kick-Off®)**

Boxlock

Ultralight Series

Fully-featured 12 gauge shotguns, weighing in at less than a typical 20 gauge, make the Ultralight series an exciting alternative for game and rough shooters alike. At 2.7 kg (5.95 pounds), the Beretta Ultralight has become the worldwide leader in lightweight over and unders. The Ultralight's receiver is machined from a single block of light, yet remarkably strong, aircraft-quality aluminium alloy, specially heat-treated to deliver the strength and durability of steel, but with 65% less weight. A special Titanium insert in the breech face provides these models with the strength to withstand the punishment of years of use in the field.

Ultralight Classic **SRP from £1,800**

The Ultralight Classic has a semi gloss finished stock and features a contemporary gamescene engraving.

Ultralight Gold **SRP from £2,065**

This new addition to the Ultralight series boasts a beautiful new receiver shape, a selected walnut stock and contemporary gamescene engraving. This model also features a new anti-corrosion treatment.

Side by Side

471 Silver Hawk **SRP £3,555**

Extensive scroll and floral engravings and a gold-inlaid hawk's head on the top lever make the 471 Silver Hawk a prestige gun you'll be proud to carry in any company. Its side by side receiver is made of a steel alloy which is rich in nickel, chromium and molybdenum for durability and beauty. The gun's barrels are joined to the monoblock by a laser system that creates the strong, seamless join.

Sideplate

687 EELL Series

With a luxurious engraving, the 687EELL is the closest thing to owning a handmade gun at this price level. Exquisitely hand finished by Beretta's master engravers, each gun has an element of individuality. The 687EELL comes with a detailed woodcock and pheasant game scene engraving.

The 687 EELL is also available as Combo (SRP £6,885) with 20 gauge and 28 gauge barrels or 28 gauge and 410 gauge barrels.

687 EELL Gamescene **from SRP £5,830**

Sideplate continued

NEW

Help for Heroes 687 EELL Limited Edition SRP from £5,995

GMK, in conjunction with Beretta have commissioned the manufacture of 100 limited edition 687 EELL's which feature a customised H4H engraving on the bottom plate. For every gun sold GMK will make a donation of £100 to the Help for Heroes charity. (See page 8 for more information).

687 EELL Classic SRP from £6,340

Refined pleasures are the rewards of life. One of these rewards is hunting with a prestigious premium grade Beretta shotgun like the incomparable 687 EELL Classic. The full side plates boast a fine engraving with birds and are enhanced by intricately detailed ornamental motifs which extend to the trigger guard and forend iron.

Jubilee Series

The Jubilee series embodies almost 500 years of tradition. The perfect balance, elegant lines and rich engravings reveal the time and attention Beretta has lavished upon these extraordinary shotguns. The sideplates are attached without lock screws creating a greater surface area for the Master Engravers to express their artistry in full. The stock and forend are of the highest quality walnut with fine, precise, hand checkering. The barrels are constructed using laser technology, fusing the tubes to the monobloc, creating a perfect and flawless profile.

The Jubilee is, in 12, 20, 28 or 410 gauge, as single guns, or in pairs to special order. A 28/.410 gauge combo model is also available (SRP £14,200).

NEW

Jubilee Gamescene SRP from £13,995

Introducing the new Beretta Jubilee - a premium gun with customisation options. The perfect balance, elegant lines and rich engravings reveal the time and attention Beretta has lavished upon these extraordinary shotguns. What makes this new model so special: Side plates and bottom plate can be customised from a selection of beautiful game scenes*. Specifically proportioned receivers for 12, 20, and 28 gauges. Available with either a pistol grip, semi-pistol grip, or straight-hand stock. Pinless sideplates allow the Master Engravers to express their artistry in full. A selection from the range - to see the full range of engraving options view on our website. (See page 7 for further information).

* Special order, selection must be made at time of order – sideplates and bottom are not interchangeable after manufacture.

Sidelock

The SO6 EELL is embellished with the finest hand engraving, signed by the artist. Standard engraving options include a scroll engraving, a gamescene engraving or a gold inlaid gamescene engraving. As an optional extra, the SO6 EELL can be ordered with even more intricate engraving styles. The stock and forend on the SO6 EELL are made of the finest walnut briar, selected for its colour tones and strength. The stock to receiver fit is completed with the utmost care. The customer can specify the final dimensions and delivery is approximately 18 months on guns which are made to special order.

SO6 EELL **SRP from £34,370**

SO10 Series

Seventy years after the first modern Beretta over and under (the S1 was launched in 1933), a new true sidelock shotgun was born. The SO10 over and under is the deserving successor of the famous Beretta SO series hunting and competition shotguns. They have earned their reputation, on the Olympic podium and on the most exclusive hunts in the world, from Europe to America to Africa, for being the most functional, elegant and exclusive over and unders in the world.

The SO10 Series has no pins or screws on the surface of the receiver, thus providing a blank surface for the master engraver. The locking system of the Beretta SO10 over and under features a rear longitudinal bolt operating in a central position. This not only makes the opening of the barrels smooth and noiseless, but it also minimises stress when opening. Needless to say, the stock and forend on SO10 and SO10EELL are made from high quality walnut, which has been selected for its grain quality, colour and strength.

SO10 **SRP from £57,000**

There is a choice of five, grade two, standard engravings on the SO10.

SO10EELL **SRP from £66,450**

There is the choice of six, grade three, standard engravings on the SO10 EELL. There is also a choice of four custom engravings, which are grade four and upwards, at an additional cost. A variety of sophisticated scenes and styles can be created to suit personal tastes and requirements, from floral motifs, to traditional game scenes, exotic subjects, fine English scrolls, mythological scenes and gold-inlaid animals. A straight hand stock is optional.

Beretta is the world's oldest gun maker, the company has been owned and managed by the same family since 1526. They are the most successful manufacturers of sporting weapons worldwide. Beretta's competition range has been designed with serious competition shooting in mind, with features to improve and enhance performance. The range is used by Olympic Champions including Olympic Gold medal winner Richard Faulds.

Semi-automatic

A400 Xcel **SRP £1,555 (without Kick-Off®)**
SRP £1,645 (with Kick-Off®)

The new A400 Xcel provides cutting edge technology with the highest performance. Features include the Blink – super fast gas operated systems, Optima-Bore HP – barrel profile which reduces felt recoil and a micro core recoil pad for improved comfort and perfect shouldering. This gun also includes the new Balance Cap designed to optimise the balance of the gun. The gun is truly eye catching with its unique blue receiver. This gun can also be supplied with the new Beretta Gun Pod which measures cartridges fired, cartridge power and temperature.

Boxlock

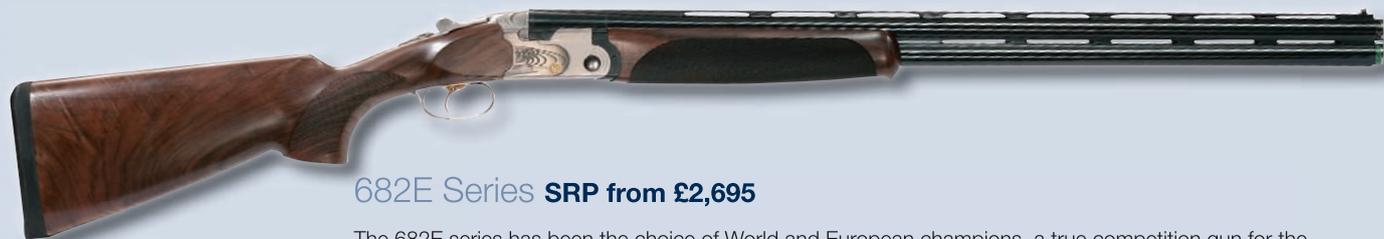

Silver Pigeon 1 Sport **SRP £1,580**

A superb sporting shotgun, offering perfect performance at a great price. Supplied in a full sporting competition specification including wide rib, competition wood work and non-auto safety. Features include walnut stock and forend with matt oil finish. Optima-Bore® barrels and Optima-Choke® tubes. 3" universal chambers. Barrels available 12ga with 28", 30" or 32".

Silver Pigeon 1 Deluxe Sport **SRP £2,065**

The award winning Beretta Silver Pigeon 1 is now available with a deluxe game scene engraving and upgraded wood. As with the scroll, no corners have been cut to bring you a 100% genuine Beretta at a fantastic price. Utilising the proven 680 action and legendary chrome lined barrels the Silver Pigeon 1 Deluxe is a winning formula. Available in 12 ga. and 30" specification.

682E Series **SRP from £2,695**

The 682E series has been the choice of World and European champions, a true competition gun for the demanding sportsman. The 682E sporting model is fitted with Optimachoke® tubes, Optima-Bore® barrels, an adjustable trigger and an optional adjustable stock. Dedicated trap and skeet versions are also available.

SV10 Prevail 1 Sport **SRP £2,065 (without Kick-Off®)**
SRP £2,265 (with Kick-Off®)

Designed to win. Today's technology-driven competition shooter demands the best performance features that modern innovation offers. And deserves the time-tested traditions, style and quality that only comes with 500 years of experience. From our celebrated lineage of classic over-and-unders, emerges a revolutionary new world-class shotgun that outperforms all expectations. And outperforms the competition.

SV10 Prevail 3 Sport **SRP £2,860 (without Kick-Off®)**
SRP £3,075 (with Kick-Off®)

The new SV10 Prevail introduces innovative patented technology that truly redefines the over and under. Its new action shape ensures an even stronger lock-up between barrels and receiver, and the new Optima-Bore® High Performance (Optima-Bore® HP) barrel profile and Optimachoke® HP choke tubes ease recoil and improve patterning. The new SV10 Prevail is a world-class gun that will out perform any expectations. As an optional extra, the SV10 Prevail is also available with the Kick-Off® recoil reduction system. (SRP £2,950). A gamescene version is also available.

Detachable Trigger

DT10 Series **from SRP £5,565**

The competition pedigree of the DT10 is beyond dispute having claimed an abundance of Olympic, World and European titles. This exceptional range of hand finished shotguns feature a cross bolt locking mechanism and a hand detachable trigger unit. Other standard features include Optima-Bore® barrels and an adjustable trigger. Available in a range of specifications, to serve a variety of disciplines, the DT10 is superbly balanced and exceptionally smooth to shoot.

DT11 **SRP from £6,565**

The DT11 will be in the UK in early 2012. It will be available in Sporting, Trap and Skeet specification with an optional adjustable stock in due course.

Sideplate

687 EELL Gamescene **SRP £5,995**

With a new luxurious engraving, the 687EELL is the closest thing to owning a handmade gun at this price level. Exquisitely hand finished by Beretta's master engravers, each gun has an element of individuality. The 687EELL comes with a detailed woodcock and pheasant game scene. A fully specified competition gun in every respect.

DT10 EELL SRP from £12,450

The DT10 EELL over and under was developed for discerning shooters who wished to combine performance and elegance with a truly durable and sound investment. The perfectly coupled components and the exquisite, fully engraved, hand-finished receiver put this shotgun into the exclusive category of Beretta Premium Grade guns.

Sidelock

SO5 Series SRP from £20,000

With numerous Olympic gold medals and World championships to its name, many of the best shooters in the world consider the SO5 to be the finest competition shotgun ever made. The SO5 is handcrafted to meet the requirements of every shooting discipline. Its sidelocks are beautifully hand engraved and the trigger plate is embellished with a 24-carat fine gold inlay of the 'P. Beretta' signature on the coin silver finish. The SO5 Series can also be made to measure, with delivery approximately 18 months.

Semi-Automatic

Beretta is the world's oldest gun maker, the company has been owned and managed by the same family since 1526. They are the most successful manufacturers of sporting weapons worldwide. Beretta's range of field guns cater for the needs of every shooter. From rough shooting, to pigeon shooting, wildfowling and game shooting, the Beretta range will have something to meet your every need, style and requirement.

A400 XPLOR UNICO 3.5" SRP £1,615 (without Kick-Off®)
SRP £1,700 (with Kick-Off®)

The A400 Xplor Unico is fast, strong, smooth, light and universally suitable for 2¾" to 3½" cartridges. It provides maximum ballistic performance, thanks to the fastest and most versatile operating system in the world. The new Kick-Off3® system introduces a third hydraulic damper to further mitigate recoil and reduce mechanical stress. Furthermore, the barrel is Optima-Bore® and made using "Steelium", a unique grade of steel exclusive to Beretta that ensures exceptional strength to weight ratio.

A400 XPLOR LIGHT SRP £1,420 (without Kick-Off®)
SRP £1,500 (with Kick-Off®)

The A400 Xplor Light is chambered for 3" cartridges, which means that the action is slightly shorter than the Unico model with a corresponding reduction in weight. Featuring a silver action finish, as opposed to the dark green of the 'Unico', the 'Light' model is available in 26", 28" and 30" barrel lengths with or without the Kick-Off® system fitted.

NEW

A400 Action 3" SRP £1,515 (without Kick-Off®)
SRP £1,600 (with Kick-Off®)

It's the shotgun that counts! Versatile and light, the A400 Action is the only gun available on the market with an on board computer – the new Beretta Gun Pod measures cartridges fired, cartridge power and temperature. With a unique brown/bronze receiver this model is a stunning and innovative new addition to the A400 range.

Urika 2 Kick-Off® Series

This model includes Beretta's unique Kick-Off® system, which reduces recoil by more than 50%. Recoil energy is gradually dissipated through two integrated oil hydraulic dampeners. At the same time, vibrations and muzzle flip are significantly decreased, enhancing handling, durability and reliability. The result is greater comfort for the user and better handling.

Urika 2 Black Synthetic SRP £1,425 (with Kick-Off®)
